

1. Lewis's original argument (as via R&H)

- How this effects MFP

2. R&H's version

- How this effects exp value

3. Moral uncertainty

- Harman on blame
- Hedden on compersion

Reply

- Restrict to incompatible; seems undermotivated
- Parameterized/indexical version ~~AKA~~ problems
- Desire by necessity? whatever that is
- Commutativity / Idempotence / Monotonicity? feels bad

- Drop $V_A(\tau) = V(A)$ - Collins.

- Works for words, but atomism etc

- Implausible in general

- See potential on 309
